HRA of further Main Modifications

This letter considers the implications of the 'Modifications proposed changes' (received 29 Jan) and 'Further additional modifications' (received 28 Jan), on the findings of the Regulation 19 Habitats Regulations Assessment (HRA) and its appendices. The information in this letter is supplementary to the HRA of the Main Modifications final report, dated November 2025.

As set out in the November report, modifications that require further consideration as they could affect the HRA findings are those that:

- Alter the overall quantum of development or remove site allocations; or
- Alter the type or scale of development proposed by a policy; or
- Update HRA mitigation embedded within the policies.

The 'Modifications proposed changes' and 'Further additional modifications' are minor, in relation to the HRA, and do not result in any of the types of change listed above.

There will be no change to the previously reported HRA conclusions, as a result of these proposed amendments.

Yours sincerely

[Redacted]
