Comments which neither support nor object to the monitoring of D1		
Respondent number	Comment	Officer comment
ANON-KSAR-NK1Z-N Shedfield Parish Council	The principles of the policy are supported but implementing and monitoring the aims may prove unrealistic and make some developments unviable. Rural areas may have very few local services and facilities with which to connect	Comments noted Response: no change

ANON-KSAR-NKZ5-S	See comments at D5	Response: no change
ANON-KSAR-NKDW-5 Littleton and Harestock Parish Council	The Local Plan is seen by WCC as a key document to deliver sustainable development and support its ambitions to achieve a carbon zero district. The Local Plan will be subject to regular reviews between now and 2039 and understanding both the effectiveness of the policies and how successful (or otherwise) they are, will inform those reviews. How the monitoring of policies will be undertaken is set out in chapter at the end of the document. The focus appears to be limited to monitoring decision of planning	Comments welcomed and noted Although the Authorities Monitoring Report does use planning applications and appeals, this makes up for a small portion of all the data used in the report. Data and information is also used and analysed from Hampshire County Council

	<p>applications and appeals. Littleton and Harestock Parish Council considers that a more comprehensive approach to monitoring should be set out which would assess the outcomes and the effectiveness of the full range of the Plan's policies and the decisions arising from them.</p> <p>Note: This comment applies to all monitoring activities.</p>	<p>for housing completions and commitments including affordable, market, house type and location of dwelling in relation to policy, Hampshire Biodiversity Information Centre and Economy data such as business class losses and gains</p> <p>This would be required during the planning application process and not in the monitoring of the development or policy</p> <p>Recommended response: no change</p>
<p>ANON-KSAR-NKTV-M Compton and Shawford Parish Council</p>	<p>Think that there should be input from the parish that the development is in as to whether the completed development is appropriate for the area</p>	<p>Comments noted</p> <p>The council are happy to receive feedback once the development has completed. The parish council has and will continue to be involved in the site allocations selection during the Local Plan regulation 18 and 19 and the appropriateness of the methods used to monitor the policies also includes how quantifiable they are which this would be difficult to measure.</p> <p>Response: no change</p>
<p>ANON-KSAR-N819-1</p>	<p>There is no clear evidence of how Policies D1 to D5 will be assessed for net zero or lowest minimal impacts on the Climate and Biodiversity crises. This includes optimal use of Nature-based</p>	<p>These aspects are considered through proposed policies CN1 and NE1, and their monitoring frameworks respectively.</p>

	<p>solutions plus Local Nature Recovery Strategies to ensure high quality, well designed and inclusive places.</p> <p>Monitoring objectives are required for all these aspects.</p>	<p>It is not considered appropriate to repeat them in the framework for this policy.</p>

ANON-KSAR-NK1Z-N Shedfield Parish Council	it is not the number of applications, but the suitability and how well the development makes use of the land and blends into the area in which it is located.	<p>Comments noted and welcomed</p> <p>The appropriateness of the methods used to monitor the policies also includes how quantifiable they are and these proposed measurements are not quantifiable.</p> <p>Response: no change</p>

ANON-KSAR-NK1Z-N Shedfield Parish Council	Monitoring applications refused then permitted at the appeal stage will not alter the decision	<p>Comments noted</p> <p>The proposed monitoring indicator will assess the policies D7 and D8 to test their effectiveness through the planning process and therefore are considered appropriate.</p> <p>Response: no change</p>

ANON-KSAR-NK1Z-N Shedfield Parish Council	Whilst supporting the ideals, this again may be unrealistic	<p>Comments noted</p> <p>Policy D9 has been removed. This now part of emerging policy CN1.</p> <p>Recommended response: no change</p>

Comments which object to the monitoring of policy D9		
Respondent number	Comment	Officer comment
ANON-KSAR-NKZ5-S	This needs to be amended to ensure the type of insulation and design is well documented to ensure a virtuous feedback loop of information to CN Policies and Plans inc. optimal approaches to Whole Life Carbon monitoring.	<p>Comments noted.</p> <p>Policy D9 has been removed. This now part of emerging policy CN1. Calculated projected carbon emission of dwellings will be required to be submitted via the planning application stage to reach policy CN3.</p>
