

Final Schedule of Proposed Main Modifications

November 2025

Schedule of Proposed Main Modifications to the Submission Winchester Local Plan 2020 – 2040 (November 2025)

This schedule sets out the Main Modifications (MMs). Additions to the Plan are indicated using **bold** and <u>underlined text</u> and deletions are shown using strikethrough.

Main Modifications Consultation

An independent Planning Inspector, R. Barrett MRTPI IHBC, has been reviewing the Local Plan to ensure it meets legal and procedural requirements and is *sound* in line with the National Planning Policy Framework (NPPF). Following public hearings held in April to June 2025, the Inspector advised that changes known as **Main Modifications (MMs)** are required before the Plan can be adopted, which is outlined in the Inspector's letter: <u>ED38a – Inspector Note 16</u>. Further details about the hearing sessions and examination can be found [here], and information on previous consultations are available [here].

What is included in this consultation?

• ED41a - Schedule of Proposed Main Modifications

The supporting documents include Appendix A housing table figures (excel spreadsheet) (ED42b) and Winchester Local Plan Examination Housing Revisions (November 2025) Note (ED42a). If you wish to include comments on either of these documents in your representation, please make them under MM49.

Additional supporting documents are available to assist with your representation:

- ED41b The Integrated Impact Assessment includes the Sustainability Appraisal (SA/SEA)
- ED41c The Habitats Regulations Assessment (HRA)

While these documents are not open for direct comment, any concerns relating to their content should be raised through comments on the relevant Main Modification.

• **ED41d - Policies Map Modifications** will not be examined by the Inspector. If you wish to make a comment, please address this through the relevant Main Modification to that policy.

Additional Modifications which include a number of minor changes to correct typographical errors and minor factual updates, are not before the Local Plan Inspector for consideration. In view of this, the Council is not anticipating any comments on these but if deemed necessary, **please**

include any comments in the appropriate Additional Modifications consultation box in the online portal. Any comments that are submitted on the Additional Modifications will be reviewed by the Council and not the Inspector.

• ED41e - Schedule of Additional Modifications

Why are Main Modifications needed?

The Inspector considers these modifications necessary to make the Local Plan legally compliant and sound. The NPPF tests of soundness require the Plan to be:

- a. **Positively prepared** providing a strategy which, as a minimum, seeks to meet the area's objectively assessed needs; and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development;
- b. **Justified** an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence;
- c. **Effective** deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground; and
- d. **Consistent with national policy** enabling the delivery of sustainable development in accordance with the policies in this Framework and other statements of national planning policy, where relevant.

How to respond

Please focus your comments on the Proposed Main Modifications. Explain clearly what change you think is needed and why and provide evidence where possible. If helpful, suggest alternative wording for the relevant policy or text. The consultation is strictly limited to comments on the Proposed Main Modifications. Comments on other aspects of the submitted Local Plan or re-submissions of previous comments will not be accepted, as these have already been reviewed by the Planning Inspector during the Examination.

Consultation period

The consultation runs from Friday, 21 November 2025 to 11:59pm on Friday, 16 January 2026.

Please submit your comments through this portal. If you cannot use the online portal, please contact us planningpolicy@winchester.gov.uk

Proposed Modification Reference	Proposed Modification	Reason
MM1 (Foreword)	Update text on Foreword pages to reflect the deletion of the phasing policy: Deletion of bullet point 4	To reflect the deletion of the phasing policy (Policy H2).
	Finally, we face the challenge of protecting our natural environment. Our city, towns and villages are surrounded by beautiful green spaces and countryside. This local plan takes the approach of 'brownfield first' — both in prioritising the use of previously developed land over green fields, but also in the phasing of development. Over 90% of the sites that developers put forward have not been included in this plan.	
	Consequential changes to bullet point 3:	
	Finally, wWe face the challenge of protecting our district's chalk streams and rivers and, alongside our neighbours, the Solent too from increases in phosphate and nitrate nutrient pollution. We will continue to innovate to tackle this alongside Government, the Partnership for South Hampshire and local landowners.	
MM2 (Pg.2)	Replace map on page 2 of the Local Plan to show the different spatial areas: Winchester Town, South Hampshire Urban Areas, Market Towns and Rural Areas (including Countryside)	To clearly show the spatial areas
	See new map at Appendix 4 of this document	
MM3 (p.8)	Neighbourhood Development Plans	To reflect the latest position on
	Update graphic to include: Wickham and Knowle Parish Council Neighbourhood Development Plan - Wickham and Knowle Parish Council are in the process of bringing forward a Neighbourhood Plan.	Neighbourhood Development Plans
MM4	Equalities Impact assessment	For clarification purposes
(p.12)	Amended paragraph 2.21 as follows:	

Proposed Modification Reference	Proposed Modification	Reason
	2.21 An Equalities Impact Assessment (EqIA) and a Health Impact Assessment has been undertaken in the Integrated Impact Assessment, alongside the Sustainability Appraisal and the Habitats Regulations Assessment.	
	Introduction	
MM5 (Introduction)	Update text on page 20 to reflect the deletion of the phasing policy (Policy H2) Delete criterion ii. and subsequently renumber.	To reflect the deletion of the phasing policy.
	ii. Maximise the use of land as a valuable resource by prioritising the development of brownfield land, making best and most efficient use of available land which is suitable for development, and achieve high quality design which makes a positive contribution to the public realm.	
MM6 (Policy SP2)	Supporting text:	For clarification purposes
	New paragraph after 3.8 as follows – The Local Plan was prepared and examined under the 2023 NPPF. It is adopted under the transitional arrangements contained in the 2024 NPPF and therefore the Council is committed to review this Plan as soon as possible after adoption. This review will focus primarily on responding to the new increased housing need set out in the new standard methodology.	
	Strategic Policy SP2 Spatial Strategy and Development Principles	
	Amend criteria i to iii of Policy SP2 as follows –	Consequential amendment to policy as a result of changes to
	i. Winchester Town will make provision for about 5,640 4,445 new homes	overall housing provision in MM49.
	ii. The South Hampshire Urban Areas will make provision for about 5,650 3,880 new homes	

Proposed Modification Reference	Proposed Modification	Reason
	iii. The Market Towns and Rural Area will make provision for about 3,850 2,675 new homes Additional paragraph at the end of Policy SP2: The Council will undertake a review of the Local Plan 2040, which will start no later than 6 months after the adoption of the plan. This review will primarily address any changes In the National Planning Policy Framework and the Standard Methodology.	For clarification purposes
MM7 (Policy SP3)	Strategic Policy SP3 Development in the Countryside Amend policy as follows: In the countryside, defined as land outside the settlement boundaries, the Local Planning Authority will only permit the following types of development: i. Development in accordance with Site Allocations as set out in this Plan or any made Neighbourhood Plans; or ii. Development which has an operational need for a countryside location, such as agriculture, horticulture, forestry, essential infrastructure or leisure and recreation development in accordance with Policy NE13 outdoor recreation; or iii. Proposals for the reuse of existing rural buildings for employment, tourist accommodation, community use or affordable housing where they are close to existing settlements or in otherwise sustainable locations which have access to public transport, active travel infrastructure and avoid the need to travel by private car (to meet demonstrable local housing needs). Buildings should be of permanent construction and capable of use without major reconstruction; or	Comments from the Environment Agency, Natural England, Southern Water

Proposed Modification	Proposed Modification	Reason
Reference	iv. Expansion or suitable replacement of existing buildings to facilitate the expansion on-site of established businesses or to meet an operational need, provided development is proportionate	
	to the nature and scale of the site, its setting and countryside location; or	
	v. Small scale sites for low key tourist accommodation appropriate to the site, location and the setting;	
	vi. Residential accommodation for which an exceptional need has been demonstrated, in accordance with policies H7 (affordable housing exception sites), H12 and H13 (traveller accommodation), or H11 (agricultural dwellings), and	
	vii. The infilling of existing settlements without a settlement boundary in line with policy H4.	
	Development proposed in accordance with this policy should not cause unacceptable harm to biodiversity and the water environment, to the character and landscape of the area or neighbouring uses, or create unacceptable noise/light and traffic generation.	
	Development proposed in accordance with this policy should <u>not increase flood risk</u> , cause unacceptable harm to biodiversity and the water environment, to the character and landscape of the area or neighbouring uses, or create unacceptable noise/light and traffic generation.	
	Where appropriate, proposals should demonstrate they have considered and assessed any potential loss of the best and most versatile agricultural land.	
	Carbon Neutrality and Designing for Low Carbon Infrastructure	
MM8 (Policy CN1)	Supporting text:	Comments from Historic England
	Key issues (p33-34)	
	New criteria in between vii and viii:	
	The Local Plan recognises the important contribution that heritage can make to climate	
	change mitigation and adaptation. This includes support for the retention, repair, and	

Proposed Modification	Proposed Modification	Reason
Reference		
1010101100	reuse of existing buildings, as well as enhancing their energy efficiency and reducing	
	carbon emissions.	
	Strategic Policy CN1 Mitigating and Adapting to Climate Change	
	Amendments to criterion i and xiv as follows -	
	i. Low carbon solutions have been incorporated that reduce and minimise energy consumption through the energy hierarchy classification of energy options (Policy CN2) and how ensure that carbon emissions have been considered at every stage of the design process;	
	xiv. The design process assesses and considers the use of green roofs and walls that are covered in vegetation, fenestration, insulation, external shutters, and the use of colour of external materials that can all contribute towards mitigating overheating; and	
MM9 (Policy CN2)	Supporting text:	Comments from Historic England
(I Olloy Olvz)	New paragraph after current paragraph 4.17:	Liigiand
	The Local Plan recognises the benefits that reuse of buildings can play in addressing climate change mitigation and adaptation, particularly in relation to heritage assets. The plan supports the retention, repair, and reuse of existing buildings, while encouraging	
	sensitive design adaptations that enhance the carbon and energy efficiency of heritage assets and buildings.	
	Policy CN2 Energy Hierarchy	
	Amend policy as follows:	

	All development shall accord with the following energy hierarchy (in order of preference):	
	 Minimise energy demand for new build which is done approach'; Maximise energy efficiency; Utilise renewable energy; and Utilise low carbon energy. 	
(Policy CN3)	Supporting text: Amend paragraph 4.19 as follows: 4.19 Policy CN2 sets out an energy hierarchy which is a classification of energy options, prioritised to focus developers to think about and embed more sustainable energy options right at the start of the design process. It is one of the core principles of the Local Plan. It is a similar approach to a waste hierarchy where the least favourable option is located at the bottom of a triangle. The development industry often refers to this as a 'fabric first approach'. This means that before considering renewable and/or low carbon energy sources, energy demand must first be reduced by maximising performance of the components which make up the building fabric (i.e. consider the materials and design of the environment and then move down the energy hierarchy). Not only is the 'fabric first' approach the most sustainable and environmentally best approach for new build, but it can also make an important contribution to addressing fuel poverty and improving social equity. When taking a fabric first approach for works to existing traditionally constructed buildings, care must be taken, and professional advice sought. Traditional construction* absorbs moisture but allows it to evaporate when conditions become drier. This is in contrast to modern construction, which often relies on impermeable barriers to prevent moisture entering the fabric. Thus when insulation is added it needs to be done in a way that maintains the moisture balance.	Comments from Historic England

Proposed Modification Reference	Proposed Modification	Reason
	*'Traditional' refers to buildings with solid walls built from permeable materials such as stone, earth, timber, clay tiles, porous brick and lime-based mortars, plasters and renders.	
	Policy CN3 Energy Efficiency Standards to Reduce Carbon Emissions	
	Amend policy as follows:	
	The Council has declared a climate emergency and has committed to providing the leadership for the district to be carbon neutral by 2030. This will contribute to the UK's legally binding target of net zero carbon by 2050. All new developments should demonstrate the lowest possible level of carbon emissions. These should be in line with the requirements set out below unless there are exceptionally clear and compelling reasons. These reasons should be established through the design process and demonstrate that achieving these standards produces a development that would be harmful to its setting or the character of the wider area or it is demonstrated that is not practical.	
	All new residential development	
	All new residential development <u>buildings</u> (excluding conversion and change of use) should not burn any fossil fuels on site for space heating, hot water or used for cooking. New residential development will need to be able to demonstrate net-zero operational carbon on site by ensuring:	
	i. The predicted space heating demand of the homes based on predicted energy modelling, showing that the target of <15 kWh/M2/year is met.	
	ii. The total kWh/yr of energy consumption of the building based on predicted energy modelling tools showing that the target of <35 kWh/M2/year is met.	

Proposed Modification Reference	Proposed Modification	Reason
	iii. The total kWh/yr of energy consumption of the buildings on the site and the total kWh/yr of energy generation by renewables to show that the balance is met.	
	iv. Onsite renewables to provide 100% of the energy consumption that is required by residential buildings, for example through the installation of photovoltaic solar panels or other suitable forms of renewable energy generating schemes that are appropriate for the location or the setting.	
	All requirements should be met at a 'building' level rather than per dwelling. For houses, each house will meet the above requirements, but for blocks of flats the requirements would be for the whole building rather than for each dwelling individually.	
	New non-residential development	
	v. New non-residential development (excluding conversion and change of use) should meet the 'BREEAM Excellent' standard or an agreed equivalent industry standard assessment process. Developers that propose a scheme to meet BREEAM standards should submit a post construction assessment and BREEAM certificate to the local planning authority to demonstrate compliance. At outline planning application stage a commitment to BREEAM Excellent should be made, and at full planning application a BREEAM pre-assessment should be provided.	
	All new non-residential developments should maximize on-site renewable energy generation. As a minimum, applicants will be expected to submit the following information as part of their planning application.	
	i. Total installed capacity on-site in (kWp) and total generation (kWh/year)	
	ii. The Photovoltaic area (M2)

	Policy D2 Design Principles for Winchester Town	
	ii. Any relevant aspects, identified characteristics and principles set out in Masterplans, Local Area Design Statements, Conservation Area Appraisals and Technical Assessments, Local Area Design Codes, Planning Frameworks, Design Codes and other relevant planning documents that have been prepared and consulted on with the involved local community <u>in</u> accordance with the Statement of Community Involvement;	To clarify the level of engagement which has informed these relevant documents.
	viii. The delivery of transport improvements identified in the Winchester Movement Strategy, Winchester Walking Strategy and City of Winchester Local Cycling and Walking Infrastructure Plan and other relevant transport documents that have been prepared and consulted on with the involved local community <u>in</u> <u>accordance with the Statement of Community Involvement</u> ;	In order to improve clarity with the wording and to make criterion ix consistent with the wording of paragraph 5.50 in the Local Plan.
	x. For development in the identified opportunity areas, the potential for the proposal to deliver or contribute to the listed opportunities within that area; In addition to the specific comments for each area, the following points should be also considered –	
MM16 (Policy D3)	Strategic Policy D3 Design Principles for the South Hampshire Urban Area Revise criterion ii of Policy D3 as follows –	To clarify the level of engagement which has informed these relevant documents.
	ii. Any relevant aspects, identified characteristics and principles set out in Masterplans, Village Design Statements, Local Area Design Codes, Planning Frameworks and Design Codes that have been prepared and consulted on with the involved local community in accordance with the Statement of Community Involvement;	dodinionts.

Proposed Modification Reference	Proposed Modification	Reason
MM17 (Policy D4)	Strategic Policy D4 Design Principles for Market Towns and Rural Villages Revise criterion ii of Policy D4 as follows – ii. Any relevant aspects, identified characteristics and principles set out in, Village Design Statements, Conservation Area Appraisals and Management Plans, Local Area Design Codes, Planning Frameworks and Design Codes that have been prepared and consulted on with the involved local community in accordance with the Statement of Community Involvement;	To clarify the level of engagement which has informed these relevant documents.
MM18 (Policy D5 and in the Contents page)	Policy D5 Concept Masterplans Pages 97 and 98 – revise title as follows – MASTERPLANS/ AND CONCEPT MASTERPLANS Supporting text:	To clarify the scope and role of Concept Masterplans and outline when they will be required.
	5.70 The masterplan will be sought to secure agreement on key development principles when development is proposed on large sites that may be comprised of a number of different development interests and brought forward in phases. The agreement of the masterplan is part of a robust design process for good place-making. They ensures these types of sites are developed in way which follows a clear vision and delivers high quality outputs thereby avoiding ad-hoc and uncoordinated development proposals which do not align with the principles of good design. 5.71 The existence of agreed plans will be able to guide the landowners, developers and the local planning authority when considering any future development proposals for the site(s). The masterplan will not necessarily detail all future development, particularly of a minor nature,	To improve clarity and bring policy in line with supporting text para. 5.72 Comments from the Environment Agency

Proposed Modification Reference	Proposed Modification	Reason
	however they should provide confidence for landowners and developers to bring forward	
	schemes in accordance with the masterplan and the principles therein and create high quality	
	places. They will also support the efficient processing of subsequent applications, saving	
	unnecessary use of resources for applicant and the local planning authority.	
	5.72 The masterplan should be prepared before, or in conjunction with, the submission of	
	development proposals. The masterplan should be prepared by landowners and developers	
	with input from the local planning authority, and following community engagement, so that the	
	main principles for developing the land can be identified and agreed. The local planning	
	authority will consider whether the requirement for a masterplan is justified and necessary on a	
	site by site basis unless stipulated by a site allocation policy in the Plan.	
	5.70 The site allocations in this Plan identify where a Masterplan is required to support planning applications and indicate the scope of what is required. These seek to ensure that there is sufficient understanding of how the site will work as a whole when taking decisions on planning applications.	
	5.71 For significant development sites, a Concept Masterplan is required, to be agreed	
	with the Council and endorsed as a material planning consideration, prior to the	
	submission of a planning application. The Council will seek to engage with landowners	
	and developers through this master planning approach as part of a Planning	
	Performance Agreement.	
	5.72 Significant development sites are sites which have an impact on the community	
	and may have the potential to deliver benefits to that community through the	
	development. The significance of development may not arise because of the scale of the	
	development proposed but be a result of the impact on the local character of the place	
	into which it is to be introduced.	

Proposed Modification Reference	Proposed Modification	Reason
	5.72a The City Council will determine whether a development site qualifies as	
	Significant Development and requires a concept masterplan as part of any pre-	
	application engagement.	
	5.72b Concept Masterplans are part of the process of design. They establish the vision	
	and aspiration for a new development, explore the different possible scenarios, engage	
	with all stakeholders to refine the development proposal, and finally identify how the	
	development will be managed for the future. The Council's expectations regarding	
	community engagement and involvement are set out in the Council's Statement of	
	Community Involvement and Master Planning Approach to Concept Masterplans.	
	5.72c Decisions on whether a Concept Masterplan is needed for a site will be decided on	
	a case-by case basis in discussion with the City Council. If a relevant adopted	
	Supplementary Planning Document (SPD) is in place, the City Council will not expect a	
	Concept Masterplan to be prepared so as not to add unnecessarily to the financial	
	burdens on development as supported by National Policy.	
	5.72d Further guidance is set out in the document "Master Planning Approach to	
	Concept Masterplans" which is available on for the Council's Website at	
	https://www.winchester.gov.uk/historic-environment/urban-design/concept-	
	<u>masterplanning</u>	
	Page 99	
	Revise title of page as follows – <u>CONCEPT</u> MASTERPLANS	
	Revise title of Policy as follows – Strategic Policy D5 <u>Concept</u> Masterplans (and throughout the Plan)	
	Revise the first three paragraphs of Policy D5 as follows –	

Proposed Modification Reference	Proposed Modification	Reason
	In the interests of sustainable development and good quality place-making in order to secure long term benefits for the district, when proposals come forward on significant development larger sites that may be brought forward in phases the local planning authority will seek to ensure that a Concept Masterplan is developed and agreed for the site. The Concept Masterplan should be based on a proportionate evidence base Proposals for significant development on sites occupied by major landowners/users will be permitted where they accord with the Development Plan and are consistent with a comprehensive and evidence based site wide concept masterplan which demonstrates how high quality design will be delivered for the whole site which has involved and engaged with stakeholders and communities. These Concept Masterplans should be agreed with the local planning authority and show how the wider implications or cumulative benefits of developing the site can be addressed.	Requirement considered unreasonable at concept masterplan stage.
	Any aApplications for significant development on sites occupied by major landowners/users should be preceded by a concept masterplan, and is which are expected to achieve the following objectives proportionate to the scale of the site and proposed development: Amend criterion xii as follows - xii. Incorporate a green and blue infrastructure strategy, providing an integrated network of green and blue spaces, taking advantage of opportunities for off-site links to the countryside, South Downs National Park where applicable and wider green and blue network, and where necessary providing alternative recreational space to mitigate potential environmental impacts of development;	
	Delete final paragraph of Policy D5 as follows - A management plan must be produced as part of the master planning process to demonstrate how infrastructure and community assets will be maintained and managed following completion of development.	

Proposed Modification Reference	Proposed Modification	Reason
MM19 (Policy D6)	Policy D6 Brownfield Development and making the best use of land Revise policy as follows: In order to ensure that development land within existing settlements is used most effectively, the local planning authority will prioritise development of previously developed land, and expect higher densities where appropriate on sites which have good access to facilities and public transport, particularly within the urban areas. The development potential of all sites should be	To ensure the policy is consistent with national policy to significantly boost the supply of housing.
	optimised, consistent with the need to promote the delivery of high quality, well designed places. The primary determinant of the acceptability of a scheme will be how well the design responds to the general character and local distinctiveness of the area in which it is located.	
MM20 (Policy D7)	Supporting text: Delete paragraph 5.84 - For large or prolonged development, consideration should also be given to the potential noise impacts during construction as well as the post development phase.	To delete repetition and improve clarity
MM21 (Policy D8)	Supporting text: Revise paragraph 5.90 as follows: 5.90 If a previous land use indicates the possibility of contamination, further investigations must be undertaken by suitably qualified and experienced persons and adequate information submitted as part of the planning application. Where appropriate, additional necessary information will be secured through planning condition. But it is essential that planning applications are supported by sufficiently robust and detailed information to enable a decision to be made on the principle of development and the type and disposition of	The reason for this is to clarify the amount of information which is required to accompany planning applications.
MM22	Supporting text:	To ensure the policy includes all relevant

Proposed Modification Reference	Proposed Modification	Reason
Reference (Policy D10)	Delete paragraphs 5.98 to 5.100 as follows — 5.98 Applications for Advanced Warning Signs (A Boards and free standing boards) will be considered with regard to the City Council's Design Guidance for the control of Shopfronts and Signs and are directional in their message. General advertising of particular goods for sale will not be permitted. 5.99 Where cafes and restaurants are permitted to locate tables and chairs on the highway, advertisements will not normally be permitted on banners or hoardings surrounding them. 5.100 In Winchester City Centre, Advanced Warning Signs will not be permitted for premises located on the High Street, Broadway, Upper High Street, St Georges Street and Jewry Street. Policy D10 Signage Proposed new modification to Policy D10 Signage as follows — In order to maintain commercial and visual attractiveness, consent will be granted for advertisements and signs which respect the character and significance of the local area and conform to the guidance below and has regard to the city council's 'Design Guidance for the eControl of Shopfronts and Signs'. Internally illuminated signs will not be permitted within conservation areas. Where consent is required, hanging or projecting signs will only be permitted where they do not contribute to visual clutter or detract from significant architectural features on the building. These will be expected to be located at fascia level, unless replacing existing historic signs. Applications for Advanced Warning Signs (A-Boards and free standing boards which are directional in their message) will be considered with regard to the City Council's Design Guidance for the Control of Shopfronts and Signs. General advertising of particular goods for sale will not be permitted.	matters, and delete superfluous supporting text in paragraphs 5.99 and 5.100 which is not in accordance with current practice or concerns matters already dealt with in the Design Guidance.
	Sustainable Transport and Active Travel	

Proposed Modification	Proposed Modification	Reason
Reference		
MM23 (Policy T1)	Supporting text:	Comments from Hampshire County
(i olioy i i)	Revise paragraphs 6.4, 6.10 and 6.21 as follows:	Council and Network Rail
	6.4 'Hampshire County Council is currently in the process of updating their Local Transport Plan which sets out its vision for future transport and travel infrastructure. The current Local Transport Plan (LTP3) was developed in 2011 but is no longer relevant to today's challenges and opportunities.' Hampshire County Council adopted their new Local Transport Plan (LTP4) in February 2024 which sets out its vision for future transport and travel infrastructure. 6.10 Whilst the Winchester Vision is solely focussed on Winchester Town, the work that was undertaken as part of this commission focussed on the need to reduce the reliance of the private motor car and promote the concept of the 15 minute cities. Given that there is a climate emergency, it is considered appropriate to embed the concept of 20 minute neighbourhoods into the Local Plan, (rather than 15 minute cities). and apply these principles in the parts of the district where this is achievable whilst recognising that the concept of 20 minute neighbourhoods does not work for all of the district. Importantly, while not all areas of the	To clarify from points raised at examination
	district can support this concept, there are several locations beyond Winchester Town where the principles of 20-minute neighbourhoods are achievable.	
	6.21 Active travel and sustainable transport are an essential component when developing a site and determine how the site will function in terms of travel patterns. To reflect the road user utility framework (as set out in LTP4), development must enable greater uptake and continued use of active and sustainable modes of transport. The location, design and layout of development will need to demonstrate significant prominence and priority is being given to those walking, wheeling and cycling, using public transport services such as local buses or other public transport networks.	
	Strategic Policy T1 Sustainable and Active Transport and Travel	

Proposed Modification	Proposed Modification	Reason
Reference		
	Amend policy as follows:	
	Planning applications for development that would increase travel must be supported by a transport assessment to quantify the amount and type of travel and should prioritise:	
	i. A genuine choice of sustainable and active transport modes of travel; prioritising walking, wheeling, cycling and public transport, followed by car clubs, electric/hydrogen vehicles and lastly private fossil-fuelled vehicles;	
	ii. Development so that it reduces the number of trips made by private motor vehicle as well as maximising opportunities to walk and cycle-in compliance with <u>due regard to</u> the Hampshire Movement and Place Framework and Healthy Streets approach as set out in the adopted LTP4;	
	iii. The concept and principles of 20 minute neighbourhoods;	
	iv. Integrating sustainable and active travel routes into the layout with connections to the wider network and where appropriate integrated with the green / blue infrastructure networks, which must be made available and usable at all stages of development particularly on large or phased sites;	
	v. Safe, attractive, secure and convenient ways that encourage all users, including those with disabilities and reduced mobility, to use more sustainable forms of transport such as walking, wheeling, cycling, buses and as appropriate, the rail network, at every stage of the development;	
	vi. The continued safe and efficient operation of the strategic and local road networks and as appropriate , the rail network ;	
	vii. New accesses and intensified use of existing accesses onto the road network that can demonstrate that they will not result in reduced highway safety or significant congestion/delays;	

Proposed Modification Reference	Proposed Modification	Reason
11010101100	and	
	viii. Proposals which include new or refurbished employment development will need to provide where appropriate measures such as showers, changing areas and lockers/storage to cater for employees wishing to engage in active travel.	
MM24	Policy T2	To improve clarity, some
(Policy T2)	Parking for New Developments	of the criteria from Policy T3 have been moved to
	Add new criteria and renumber as follows:	T2
	New development, excluding householder development, will only be permitted where:	
	i. The applicant can demonstrate in the Design and Access Statement, Transport Assessment/Statement and the Travel Plan, how the needs of sustainable transport modes have been prioritised in the design process and provide justification for the level of car parking provided on the site;	
	ii. The parking provision on residential development including for visitors shall take account of local circumstances including the layout of the development, the mix of dwellings, the character of the local area and the proximity of public transport;	
	iii. Residential development proposed with no car parking provision will be supported where it is located in walking distance of a range of services and facilities, or there is appropriate access to non-car based modes of transport, and it is demonstrated that the lack of provision will not be to the detriment of the surrounding area or the need of those with limited mobility;	
	iv. Secure parking for cycles, e-mobility, mobility scooters or any other form of non-car transport must be provided in a safe and convenient location and should be integral to the building where possible, and if this is not possible should be undercover, with charging points	

Proposed Modification Reference	Proposed Modification	Reason
	designed according to the relevant standard or locally specific demand and any health and safety requirements; and	
	v. The design provides attractive, landscaped and safe parking areas which are overlooked by dwellings or other areas of active public use providing surveillance and are accompanied with associated long term maintenance plans;	
	vi. Includes permeable parking surfaces unless there are overriding evidenced reasons that prevents their use;	
	vii. Any surfaces used should be appropriate to the site context and expected level of use; and	
	viii. Parking for commercial uses will be considered on a case by case basis.	
MM25 (Policy T3)	Supporting text: Amend paragraph 6.33 as follows: 6.33 Planning applications will be required to demonstrate through the design process how sustainable transport modes of travel, mobility parking and access to public transport has been prioritised over private car parking and access. Planning applications will be required to ensure that through the design process (policy D1), they have demonstrated how developments will facilitate walking, wheeling and cycling, and the use of public and shared transport options, integrating them into the site layout from the outset. The policy requires that applicants ensure that design proposals respond sensitively to the	Deleted criteria have been moved to T2 or T4. To clarify from points raised at examination
	character of the surrounding area. The design and layout should be safe, attractive and functional. It should avoid potential conflicts between the various users and make car travel the lowest priority. It should be designed in a way that connects together the new development to the Public Rights of Way network and the nearest public transport facility. Amend policy title, criteria as follows and subsequently renumber:	

Proposed Modification Reference	Proposed Modification	Reason
	Policy T3 Enabling Sustainable Travel Modes of Transport and the Design and Layout of Parking for New Developments Prioritising Active and Sustainable Modes of Travel	
	In order to prioritise sustainable and active modes of travel planning applications (excluding householder applications) will be required to demonstrate through the design process the need for parking provision. New development, will only be permitted where:	
	i. Priority is given for active and e-mobility travel and car clubs (unless the applicant can demonstrate that this would not be appropriate);	
	ii. Parking is provided on site, it will have there are facilities for charging of plug in and other ultra-low emission vehicles in safe, accessible and convenient locations in accordance with the Building Regulations:	
	iii. The design incorporates parking provision, which has drop off spaces, vehicular access and kerbside space for servicing and loading where appropriate:	
	iv. Opportunities have been explored through the design process to incorporate, where appropriate shared spaces;	
	v. As part of the overall design the scheme takes account of the character of the surrounding area in accordance with High Quality Places SPD or its successor; and	
	vi. The design provides attractive, landscaped and safe parking areas which are overlooked by dwellings or other areas of active public use providing surveillance and are accompanied with associated long term maintenance plans;	
	vii. Signage and lighting is provided in places where it is necessary which are of a high quality design appropriate to the location;.	

Proposed Modification Reference	Proposed Modification	Reason
	viii. Includes permeable parking surfaces unless there are overriding evidenced reasons that prevents their use; and	
	ix. Any surfaces used should be appropriate to the site context and expected level of use.	
MM26 (Policy T4)	Policy T4 Access for New Developments	To improve clarity, some of the criteria from Policy T3 have been moved to
	Amend criteria and renumber as follows:	T4
	New development, excluding householder applications, will be permitted where it accords with the development plan and where it:	
	i. Prioritises the needs of walking, wheeling and cycling safe and attractive routes to, from and within the site which connect to existing Public Rights of Way network outside the site boundary and the nearest public transport stop, minimising the scope for conflicts between all users;	
	ii. Addresses the needs of people with disabilities, children and those with reduced mobility in relation to all modes of transport; including the provision of appropriate crossings at appropriate locations;	
	iii. Allows for access to, and movement within, the site in a safe, low speed and effective manner, having regard to the amenities of occupiers of the site, and adjacent land and to the requirements of the emergency services and service providers, including turning facilities and manoeuvrability for emergency vehicles as appropriate in accordance with the most current guidance; and	
	iv. Makes provision for access to the site in accordance with any highway requirements on the grounds of safety, including the provision of gateways, visibility splays, access to adopted highways and accompanying signage that may be required;	

Proposed Modification Reference	Proposed Modification	Reason
	v. The design incorporates parking provision, which has drop off spaces, vehicular	
	access and kerbside space for servicing and loading where appropriate; and	
	→ vi. Any sites that are likely to generate large numbers of HGV movements need to be in reasonable proximity and accessible to Major Road Network or the Strategic Road Network.	
	Biodiversity and the Natural Environment	
MM27 (Policy NE1)	Supporting text: Amend paragraph 7.15: The Local Plan has a key role to play in achieving these aims for the natural environment and biodiversity. It is responsible for allocating the sites needed to provide the housing, employment and other requirements of the district up until 2040. It can ensure that new	Comments from Historic England, the Environment Agency, and Hampshire County Council
	development is focused on sustainable areas using a brownfield land first approach and through policies which ensure that all aspects of the natural environment and biodiversity are protected and enhanced.	To reflect the deletion of the phasing policy.
	Key Issues (p.134)	
	Amend criterion iv as follows –	
	The Local Plan helps to ensure that the landscape and natural environment of the district which is valued so highly is protected and enhanced. The complex interplay between landscape, the natural environment, historic features and cultural connections means that an integrated approach to their management is recommended.	
	viii. There is a need to prioritise the use of brownfield land over green field sites whilst accepting that there is unlikely to be sufficient brownfield land in the district to meet its development needs. This reflects the sustainable development aims of the plan.	
	Amend paragraph 7.23 as follows –	

Proposed Modification Reference	Proposed Modification	Reason
	7.23 In order to ensure that the Local Plan accords with the guidance in the NPPF and supports the aims set out in the council's nature emergency declaration the preferred approach is to include an overarching strategic policy that sets out the council's aspirations in respect of promoting the protection and enhancement of biodiversity and all aspects of the natural environment. Measures could include hedgehog highways, swift bricks, bat bricks / boxes and appropriate planting. The emerging Hampshire Local Nature Recovery Strategy includes maps of the most valuable areas for wildlife, opportunities to improve nature in the future and local priorities for nature recovery.	
	Strategic Policy NE1 Protecting and enhancing Biodiversity and the Natural Environment in the district	
	Amendments to criteria ii and criterion v as follows -	
	ii. Safeguards features of the natural environment and nature conservation interest and makes nature based solutions part of the plans to tackle the climate emergency. These should include measures to retain, conserve and enhance habitats, including, internationally, nationally and locally designated sites, priority habitats, networks of ecological interest, ancient woodland, water features, hedgerows and wetland pastures as corridors and stepping- stones for wildlife and relevant local priorities for nature recovery in the Hampshire Local Nature Recovery Strategy;	
	v. Normally any mitigation, compensation and enhancement measures are required to be delivered on-site, unless special circumstances dictate that off site mitigation or compensation is more appropriate. Off site or a A financial contribution, in lieu of on-site mitigation, will only be considered in limited circumstances and where it is demonstrated that the proposed mitigation is deliverable and effective; and	
MM28	Policy NE2	To improve the clarity of
(Policy NE2)	Major Commercial, Education and MOD Establishments in the Countryside	the criterion.

Proposed Modification Reference	Proposed Modification	Reason
MM29 (Policy NE3)	i. The local planning authority will support the retention and development of existing major commercial, educational and MOD establishments that occupy rural locations in the district, where this will help them continue to contribute to the district's economic prosperity; ii. Any application for development is preceded by, and is consistent should provide with, should provide a comprehensive and evidence based site wide masterplan which demonstrates how high quality design will be delivered for the whole site which has involved and engaged with stakeholders and interested parties before it is agreed by the council. Supporting text: Amend paragraphs 7.28 and 7.29 as follows - 7.28 Given existing shortfalls in provision, and to achieve the required improvements, it is important that all existing facilities are retained. Therefore all current open space areas and built sports facilities will be protected against development for other uses, unless exceptionally improvements can be achieved by relocating them, it can be shown that they are no longer needed or the benefit of the proposed alternative use to the community outweighs the harm caused by the loss of the facility. In such circumstances any proposal should be accompanied by a detailed assessment which clearly demonstrates that the loss of that open space or built sports facilities would not be detrimental, and the benefits are clearly outlined. 7.29 The Open Space Assessment 2022 specifies the amount and type of facilities currently available, by Parish, together with an assessment of deficiency. The Council will seek to enhance and improve the quality of existing open spaces particularly where deficiencies are identified. The Council will work with partner	Comments from Hampshire County Council and HIWWT. To ensure clarity.
	organisations such as PfSH to provide additional strategic open space such as Suitable Alternative Natural Greenspaces (SANGs).	

Proposed Modification Reference	Proposed Modification	Reason
	Table 2 : Built Facilities Standards (quantity and access by walking or driving) (p.140)	
	Amendments to the first row as follows -	
	Facility: Sports halls	
	Standard per 1000 population: 1.0 ha./1000 population Access: 700m <u>54.5m²</u>	
	Facility/ population: 0.8 ha./1000 population Access: 400m 1 per 11,000	
	Walking distance: 0.5 ha./1000 population Access: 480m Toddler and Junior 650m Youth 20 minutes	
	Driving catchment: 0.2 ha./1000 population Access: 480m 15 minutes	
MM30 (Policy NE4)	Supporting text:	Comments from Historic England and Natural
(I olloy IVL+)	Amend paragraphs 7.32, 7.34 and 7.35 as follows:	England.
	7.32 Well-designed GI (in accordance with the GI principles set out by Natural England) can also add value to properties and attract investment in an area by enhancing its character and local distinctiveness. Key green infrastructure assets and opportunities within the district include: -	For clarity and effectiveness.
	 River corridors, tributaries and valleys of the Itchen, Meon, Hamble, Wallington and Dever which are of considerable biodiversity, landscape and recreation value; Disused railway corridors (e.g. at Bishops Waltham, Meon Valley, Winchester, Kings Worthy to Sutton Scotney and Alresford to Winchester); 	

Proposed Modification	Proposed Modification	Reason
Reference		
	Important public rights of way such as the South Downs Way, Itchen Navigation Heritage Project, and Keats Walk, Winchester;	
	Natural and semi-natural greenspaces such as chalk downlands e.g. at Whiteshute Ridge and Shawford Down.	
	• Areas of accessible and/or ancient woodland, including those of the Forest of Bere (e.g. West Walk, Creech Woods, Whiteley Pastures);	
	• Farmland which makes up around 73% of the district, which is predominantly arable land in the north, downlands and pasture in the south along the river valleys;	
	 Historic parks, Scheduled Monuments, Registered Battlefields and landscape features 	
	such as park pales, veteran trees, and sunken lanes; and	
	Formal and informal recreation areas such as Farley Mount.	
	7.34 Well-planned green infrastructure should be incorporated into development proposals integrating and building upon the existing green network. It should contribute to high quality development and economic prosperity by making places attractive to residents and businesses and improving the health and well-being of the local and wider community. It should respect and respond to local landscape character, including features of heritage significance, and integrate with sustainable transport and green tourism initiatives, expanding upon existing provision.	
	7.35 Green infrastructure also forms a valuable contribution to the setting of Winchester Town, through extensive tree coverage and areas of open land such as the Water Meadows, which come into heart of the town providing public access to the wider countryside. Some of this countryside is within the South Downs National Park. The River Itchen also passes through the Town and is protected by international and national designation recognising the exceptional quality of this chalk river and its environs.	
	Policy NE4 Green and Blue Infrastructure	
	Amend policy as follows:	

Proposed Modification Reference	Proposed Modification	Reason
	Planning permission will be granted for development proposals that The local planning authority will support development proposals that: - maintain protect and enhance the function or the integrity of the existing green infrastructure network identified at a district and sub district level, including strategic blue and green corridors and spaces, as illustrated on Map 9 and as shown on the Policies Map, particularly where the proposal allows for the enhancement of GI both on-site and in the immediate area using important local character features, including existing planting, trees, groups of trees, copses, wetland, hedgerows and opportunities for wild food foraging;	
	Provide a measurable net gain of well-managed, multifunctional green infrastructure, in accordance with the categories and standards specified in Policy NE3 and appropriate for the scale of development, through on-site provision which:-	
	i. Addresses deficits in local green infrastructure provision where appropriate; ii. Incorporates in landscaping schemes natural planting of at least 50% pollinator friendly planting of predominantly native species; iii. Integrates with the green network/ grid identified at the district and subregional level (as illustrated on Map 9); iv. Provides a high-quality natural environment with biodiversity interest;	
	The green infrastructure shall be accessible for all with high levels of accessibility in primary areas, and promote health, wellbeing, community and cohesion and active living; encourages public access to and within the natural environment where appropriate;	
	 i. Allows for adaptation to climate change; ii. Is well planned to allow cost effective ongoing management of the GI; iii. Is accompanied by a management plan; iv. Links areas of biodiversity; v. Is provided at the earliest feasible stage; vi. Includes proposals for walking, cycling and equestrian routes provided they contribute to a network of attractive and functional non-motorised travel routes, with appropriate signage, 	

Proposed Modification Reference	Proposed Modification	Reason
	throughout the district; vii. Protect the following disused railway line routes and associated infrastructure including the access routes to them, (Bishops Waltham, Meon Valley and Winchester) within the district as shown on the Policies Map, so they are safeguarded for existing, and potential future use as non-motorised travel routes.	
	Protect and support the proposals that facilitate future uses and enhancements for non-motorised travel routes where necessary on the: • South Downs Way; • Wickham to West Meon (Meon Valley Trail); and • New Alresford to Kingsworthy (Watercress Way). viii. Watercourses are safeguarded and improved for quality, amenity, biodiversity and quantity. Where it can be established that onsite provision is not possible financial contributions will be required for the provision and management of GI sites and will be negotiated on a site-by-site basis.	
MM31 (Policy NE5)	Supporting text: Amend paragraphs 7.39, 7.44 and 7.45 as follows: 7.39 Winchester district has many areas which are noted for their natural beauty and biodiversity value. These areas also support a wide variety of species and habitats, and form an important part of the network of biodiversity sites within the wider environment. They include the Itchen chalk river, the Upper Hamble Estuary and Woods and coastal habitats of the Solent and Southampton Water. The importance of these areas is recognised by the statutory and policy protection afforded to nationally protected sites including Special Areas of Conservation (SAC), Compensatory SAC's and Special Protection Areas (SPA), as well as to Ramsar wetland sites. Plans or projects proposing development that is not directly connected with the management of these sites, but that is likely to have a significant effect on them, must ensure that effects are avoided or adequately mitigated. If adverse effects on site integrity cannot be	Update in response to the HRA Addendum and comments from Natural England and Nature Space. Recommendations in the HRA on the draft Proposed Modifications.

Proposed Modification Reference	Proposed Modification	Reason
	avoided or mitigated then reasons of overriding public interest must be demonstrated and compensation measures provided.	
	7.44 In addition, the Habitats Regulation Assessment and Sustainability Appraisal advise that a strategic approach to air quality management is required, including a strategic assessment of the Plan to consider potential impacts from air quality. This is to ensure the continued protection of sites of national importance, as well as local nature conservation sites given the planned level of growth. The location of air quality monitoring sites and the setting of thresholds to trigger further investigation should be determined through lower level assessments and, where appropriate, be applied as a condition on planning permissions	
	7.44 7.45-The Council is part of the Solent Recreation Mitigation Partnership (SRMP), also known as Bird Aware Solent. The Council has worked with the Partnership to form a Mitigation Strategy to counteract impacts associated with recreation pressure from residential development within 5.6km (the 'zone of influence') of Statutory Designated Habitat Sites in the Solent (Solent & Southampton Water SPA/Ramsar; Chichester & Langstone Harbours SPA/Ramsar; Portsmouth Harbour SPA; and Solent & Dorset Coast SPA). Development proposals that result in a net increase in residential units will need to demonstrate that negative effects can be avoided or mitigated by contributing or they must contribute towards the strategic mitigation measures put in place by Bird Aware Solent. Some other types of development (such as care homes, student accommodation) may also need to address recreational disturbance both alone and in-combination. Development will be assessed on a case-by-case basis.	
	New paragraph after current paragraph 7.49: <u>Winchester City Council holds a Great Crested Newt Organisational (or "District")</u> <u>License granted by Natural England¹. The associated District Licensing Scheme, which is currently administered and managed by NatureSpace Partnership, and provides an alternative licensing option for developers to address impacts on protected great crested newts by enabling a 'conservation payment' towards high-quality habitat creation and long-term management and monitoring. In the District Licensing Scheme,</u>	

Proposed Modification Reference	Proposed Modification	Reason
Treference	developers can engage with NatureSpace at the pre-application stage or at the planning application stage. It is based on a great crested newt landscape- scale conservation strategy, which aims to focus the creation of new habitats where they will be of maximum benefit to the species, whilst also reducing risk and uncertainty through the planning process for developers and planning authorities. The strategy results in a range of other biodiversity benefits and contributes towards nature recovery at the landscape scale.	
	¹ District Licensing Scheme for Great Crested Newts - Winchester City Council	
	Policy NE5 Biodiversity	
	Amendment to criterion iv as follows –	
	New development will be required to avoid adverse impacts, or if unavoidable ensure that impacts are appropriately mitigated, including impacts on to functionally linked land and SAC compensatory habitats are appropriately avoided, mitigated or compensated in line with mitigation hierarchy and will be subject to HRA. Developments within 500 metres of the SPA/Ramsar FLL Habitats Site, Compensatory Habitats Site or Functionally Linked Land (FLL) should produce a Construction Environmental Management Plan (CEMP) to address potential impacts to these habitats during the construction phase;	
MM32 (Policy NE6)	Supporting text: Amend paragraph 7.55 as follows:	Comments from Southern Water, Historic England and the Environment Agency
	7.55 It is important that there is adequate capacity both on and off the site to serve	

Proposed	Proposed Modification	Reason
Modification Reference		
	development and that it would not lead to problems for existing users. Where there is a capacity problem constraint on the main public water or wastewater network, we encourage the developer to work closely with the service provider on the delivery of the	
	required network reinforcement to ensure there is no detriment to the operation of the network caused by the wastewater flows or water consumption from the development. and no improvements are programmed by the water company, the council will require the	
	developer to fund appropriate improvements which must be The work should be completed prior to occupation of the development, and phasing of the occupation may be required in tandem with the delivery of the infrastructure.	
	New paragraph after current paragraph 7.59: The impact of flooding on the historic environment should be considered by	
	development proposals. This includes but is not limited to the vulnerability of heritage assets and their potential harm to or loss of significance, the implications of flood risk on securing sustainable use for heritage assets and the potential impact of flood risk	
	management measures on heritage assets and their setting. Any flood prevention measures should consider how heritage assets are safeguarded and reduce any	
	potential harm to the historic environment"	
	Policy NE6 Flooding, Flood Risk and the Water Environment	
	Amendment to criteria viii as follows –	
	Prioritise and explore the opportunities for Natural Flood Management for all proposals in areas at risk of flooding for the lifetime of the development before any hard engineering flood defences or water attenuation measures are proposed. These should ensure there is no net loss of floodplain storage capacity or obstruction to flood flow routes , be designed to	
	maximise the benefit to flood risk management, water quality, biodiversity, and amenity to

	provide attenuation and biodiversity enhancement;	
MM33 (Policy NE7)	Policy NE7 Settlement Gaps Amendment as follows –	To improve clarity and to align the wording of Policy NE7 with the PUSH guidance.
	The local planning authority will retain the generally open and undeveloped nature of the following defined settlement gaps, as shown on the Policies Map :	
	 i. Bishop's Waltham – Swanmore – Waltham Chase – Shedfield – Shirrell Heath ii. Denmead – Waterlooville iii. Kings Worthy - Abbots Worthy iv. Otterbourne – Southdown v. Winchester – Compton Street vi. Winchester – Kings Worthy/ Headbourne Worthy viii. Winchester – Littleton viiii. Whiteley – Fareham/Fareham Western Wards (the 'Meon Gap') ix. Knowle, Wickham and Welborne Within these areas only development that does not undermine the function of the gap and its intended role to define and retain the separate identity of settlements will be permitted. Any development should not threaten the generally open and undeveloped nature of the gap and avoid coalescence. either individually or cumulatively with other existing or proposed development compromise the integrity of the gap and should not threaten the generally open and undeveloped nature of the gap and avoid coalescence. 	
	Once the development is built out at Welborne any future review of the Local Plan should include a review of this settlement gap.	

Proposed Modification Reference	Proposed Modification	Reason
MM34 (Policy NE8)	Supporting text: Amend paragraphs 7.68 to 7.72 as follows:	Comments from South Downs National Park Authority
	7.68 In accordance with the National Parks and Access to the Countryside Act, as amended by Section 245 of the Levelling Up and Regeneration Act 2023, in exercising or performing functions in relation to the South Downs National Park relevant authorities must seek to further taken to statutory purposes of the South Downs National Park. The National Park purposes are:	
	 To conserve and enhance the natural beauty, wildlife and cultural heritage of the area. 	
	 To promote opportunities for the understanding and enjoyment of the special qualities of the National Park by the public. 	
	7.69 The NPPF states that great weight should be given to conserving and enhancing landscape and scenic beauty in National Parks and that development within their setting should be sensitively located and designed to avoid or minimise adverse impacts on the designated areas. A considerable amount of land within the district is immediately adjacent to the boundary within the setting of the SDNP and development there could have the potential to cause adverse impacts if this is not considered early in the planning stage. It is therefore considered to have a plan which is silent on impacts on the national park is not a suitable alternative policy approach.	To improve the clarity.
	7.70 In delivering pursuit of the National Park's purposes, the National Park Authority has a duty to seek to foster the social and economic well-being of the local communities within the National Park.	

Proposed Modification Reference	Proposed Modification	Reason
	7.71 The South Downs National Park is an International Dark Sky Reserve. The adopted South Downs National Park Local Plan identifies a dark sky core and buffer and transition zones. Development proposals that are in close proximity to within the setting of the National Park and include significant-proposals for-external lighting are expected to refer to the Dark Skies Technical Advice Note published by the SDNPA and demonstrate how it conserves or	Comments from SDNPA.
	enhances the intrinsic qualities of the dark night sky and the setting of the national park. 7.72 The adopted South Downs National Park Local Plan is supported by assessments of	To improve the clarity.
	Policy NE8 South Downs National Park	
	Amend policy as follows: Development close proximity within the setting of the South Downs National Park will only be permitted where it would be in accordance with the statutory purposes and duty for National Parks as specified in the National Parks and Access to Countryside Act 1949, as amended by the Environment Act 1995 Section 245 of the Levelling Up and Regeneration Act 2023, and where they conserve and enhance the intrinsic quality of dark night skies and the setting of the National Park.	
	Development proposals close proximity to within the setting of the South Downs National Park are expected to take account of the National Park assessments of landscape and tranquillity and demonstrate how a proposal conserves and enhances the special qualities of the Park.

	and:	
	i. Make best use of existing infrastructure most notably existing vehicular and field access, tracks, bridleways, byways, utilities and buildings; ii. Respect existing landscape character and minimise visual impact, by means of location, scale, appearance and design; iii. Do not involve the erection of new buildings, or associated features such as hard standing, parking or manure storage sites, where they would harm the existing landscape through isolated or scattered development; iv. Do not harm the character of the area by reason of the cumulative impact when considered with other similar enterprises in the area; v. Do not involve the use of construction materials, boundary treatments, floodlighting, siting of areas of hard-standing, new or extended access routes, or other infrastructure related to the equestrian development that would have an adverse unacceptable impact on the appearance of the landscape; vi. Artificial lighting will only be permitted where visually acceptable and essential to support the operation of the use. Its design and operation may be limited by condition in order to minimise light pollution in the countryside; vii. Do not have an unacceptable impact on residential amenities in the vicinity; viii. Include a satisfactory landscaping scheme, providing screening, boundary treatment and provision for future maintenance where appropriate; ix. Includes details for the storage and removal of manure from the site; and x. Do not cause material harm to hedgerows and arable field margins and where appropriate enhance existing hedgerows. The development of residential accommodation in connection with equestrian development will not generally be permitted unless it is in accordance with the requirements of policy H11. The development of visitor accommodation in association with equestrian development will be considered in relation to the criteria of policy SP3.	
MM37	Supporting text:	Comments from Natural
(Policy NE16)		England

Proposed Modification Reference	Proposed Modification	Reason
	Amend paragraphs 7.112, 7.114 and 7.115 as follows:	
	7.112 The council needs to consider the impacts of nitrogen on the Solent SAC which covers sites in the south of the district. The issues with phosphorus <u>and nitrogen</u> draining into the catchment for the River Itchen covers a significant part of the district including areas to the north and east of Winchester and Natural England advises that phosphorus and nitrogen are causing adverse environmental effects on the quality of the river.	Identified by the Counci in the MIQ's for clarity and effectiveness/ completeness
	7.114 There are a number of strategic mitigation sites that have been brought forward over the few years by landowners both in the district and neighbouring areas. Developers can acquire nutrient credits from these land owners, which equate to and 'offset' the amount of mitigation	To clarify how mitigation can be achieved
	required for a development, to ensure that any adverse impact upon the quality of the water environment of protected sites is avoided. The Council have produced a Nutrient Topic Paper which sets out the supply of nutrient mitigation, including the Council's own mitigation schemes. Details of available and suitable third party mitigation schemes are provided	To signpost people to where they can locate additional information.
	on the Council's website ¹ .	
	7.115 The Local Plan may be able to help by allocating land for use in mitigation which could include using nature based solutions such as planting woodland or creating wetland habitat in appropriate locations. Any nutrient mitigation schemes brought forward should be agreed with Natural England.	To improve the clarity.
	New paragraph after current paragraph 7.115 –	
	The Local Nature Recovery Strategy for Hampshire should, when published, be used to guide the location and design of nutrient mitigation schemes to ensure that they make positive contribution towards the Local Nature Recovery Network, in particular, the identified priorities for nature recovery as set out in Local Nature Recovery Strategy.	To provide an update situation regarding the Local Nature Recovery Strategy.

¹ Nutrient Neutrality - What developers need to know - Winchester City Council

Proposed Modification Reference	Proposed Modification	Reason
	Policy NE16 Nutrient Neutrality Water Quality Effects on the Special Protection Areas (SPAs), Special Areas of Conservation (SACs) and Ramsar Sites of the Solent and the River Itchen Amendment to criterion i as follows –	
	Planning permission will only be granted where the integrity of nationally protected sites is not adversely affected by new overnight development.	To provide clarity.
	Amendment to criterion ii as follows:	
	When assessing applications for development the impacts of increased nutrients from these sites will be considered. Permission will be granted only where effects can either be excluded or, if that is not possible, mitigation by nutrient neutrality is achieved following the guidance provided by Natural England either through: A developer-provided on site solution agreed with Natural England; and/or A financial contribution towards a strategic mitigation scheme. 	To provide clarity.
	thereby avoiding any adverse impact upon the quality of the water environment of the sites; and	
MM38 (Policy NE17)	Supporting text: Amend paragraph 7.118 as follows: 7.118 A small number of Solent Wader and Brent Goose Strategy (SWBGS) sites ("functionally linked land") are identified around the Upper Hamble as supporting high tide roosts of birds from the Solent and Southampton SPA/Ramsar. The Solent Wader and Brent Goose	Update in response to the HRA Addendum and comments from Natural England and the Environment Agency.

	waders and brent geese data and mapping solentwbgs.wordpress.com. There is a minimum	
	requirement of one year's ecological survey to confirm the classification of a site (three	
	years where classification is disputed).	
	New paragraph after current 7.123:	
	The creation of buffer zones between built development and river/watercourse banks	
	(at a minimum of 10 metres ¹) provide multiple benefits for water quality, pollution	
	prevention, flood risk management, habitat connection and biodiversity.	
	¹ 3D buffer strips	
	Policy NE17 Rivers, watercourses and their settings	
	Amend policy as follows:	
	Development proposals that affect rivers, watercourses or their settings will be permitted where they conserve and enhance the following;	
	i. Water quality and quantity, and help achieve requirements of the Water Framework Directive and Habitats Regulations or their replacement, in the case of the River Itchen SAC and Upper Hamble (Solent Maritime SAC, and Solent & Southampton Water SPA/Ramsar); SAC compensatory habitats on the River Meon, River Dever, River Dun, Bourne Rivulet, and River Test; and habitats relied upon as identified in the Solent Wader and Brent Goose Strategy (SWBGS);	
	ii. Ability of groundwater, surface water features and watercourse corridors to function as	

Proposed Modification Reference	Proposed Modification	Reason
	natural flood management areas throughout seasonal variations, within the immediate	
	vicinity, and both upstream and downstream of the site of the proposal including for flood risk management purposes; and	
	Specifically for surface water features and watercourse corridors; iii. Increasing biodiversity;	
	iv. Character, appearance and setting;	
	v. Public access to and along the waterway for recreational opportunities and the importance of providing canopy shading for both the natural water environment and for people walking beside the waterway;	
	vi. Include measures to eliminate risk of pollution to groundwater, surface water and watercourse corridor features which would harm their ecological and/or chemical status.	
	vii. Creation of adequate natural buffers zones between riverbanks/watercourse banks and any built development. These buffer zones should be kept free of any structures to allow the natural watercourse environment to flourish;	
	The loss of habitats identified as 'Primary Support Areas', 'Secondary Support Areas' or 'Low Use' sites in the SWBGS do not require project level HRA but and if identified mitigation / compensation should be provided in line with the SWBGS.	
	The Historic Environment	1
MM39 (Policy HE1)	Supporting text: Amend paragraph 8.4 as follows:	Comments from Historic England

Proposed Modification Reference	Proposed Modification	Reason
	8.4 The historic environment is an irreplaceable resource that needs to be protected and enhanced for the benefit of current and future generations. Currently there are 110 Scheduled Monuments, 2,271 listed buildings, 11 historic Registered parks and gardens, 37 Conservation Areas and a historic battlefield at Cheriton, which fall within the Winchester district.	
MM40 (Policy HE2)	Policy HE2 All Heritage Assets (both designated & non-designated)	Comments from Historic England
	Amend policy as follows:	
	Heritage assets should be conserved in a manner appropriate to their significance. Applicants must describe the significance of any affected heritage assets, including any contribution made by their settings, using appropriate expertise and assessment, including a desk-based assessment (where a site on which development is proposed includes, or has the potential to include, heritage assets with archaeological interest), and where necessary heritage impact assessment and/or field evaluation. (the results from which needs to be submitted in a Heritage Statement).	
	All applications which affect or may affect heritage assets should be accompanied by a Heritage Statement, proportionate to the nature of the development and heritage interest, describing the significance of affected heritage assets (including any contribution to significance made by and/or their settings), the degree and nature of impact upon that significance and how the proposals minimise or mitigate any harm. For minor or householder applications, where there is a limited impact on heritage assets, this can be incorporated into the Design and Access Statement. Any proposals directly affecting buildings and other structures for heritage assets included in the council's 'Buildings at Risk Register', or the Historic England 'Heritage at Risk Register', shall include works including repairs to enable the removal of the heritage assets from those registers. improve the condition of those buildings/structures.	To improve clarity
	Applications involving buildings and other structures that are included on the council's 'Buildings at Risk Register', or the Historic England 'Heritage At Risk Register', will need to include a schedule of works and accompanying supporting information that	

Proposed Modification Reference	Proposed Modification	Reason
	details all of the repairs that are needed to improve the condition of the building or structure which, subject to the satisfaction of the local planning authority, will enable the removal of them from the register(s).	
MM41 (Policy HE3)	Reword footnote 1 as follows: 'Registered battlefields, grade I and II* listed buildings , grade I and II* registered parks and gardens, scheduled'	Result of hearing session
MM42 (Policy HE6)	Supporting text: New paragraph after 8.11	Comments from Historic England
	Non-designated heritage assets of archaeological interest, which are demonstrably of equivalent significance to scheduled monuments, will be assessed against the policies for designated heritage assets.	
	Amend policy and policy titles as follows: Policy HE6 Scheduled Monuments and Nationally Important Non-designated Archaeological Assets	
	Proposals should take a positive approach to archaeology, by avoiding locating development on sensitive areas and designing development that responds positively to the significance of archaeological features, including their settings.	
	Applications for planning permission which affect, or may affect a scheduled monument, or its setting, should be supported by appropriate and proportionate evidence on the significance of the asset (including the contribution to significance made by its setting) and the steps that would be taken to avoid and minimise harm. Where harm is unavoidable, proposals should explain the reasons why and outline steps to minimise harm.	
	Historic England should be notified where a <u>sScheduled mMonument eConsent</u> (SMC) is required in addition to planning permission <u>and/or</u> <u>if the proposals may affect a Scheduled</u>	

Proposed Modification Reference	Proposed Modification	Reason
1101010100	Monument and/or its setting.	
	Applications which affect, or may affect, a non- designated heritage archaeological asset that is potentially of national importance will be required to provide appropriate and proportionate evidence on the significance of the asset (including the contribution to significance made by its setting) and the steps that would be taken to firstly avoid harm and if unavoidable to and minimise harm.	
	The Winchester City Council Archaeological Advisor / Archaeologist should be consulted on proposals that have the potential to affect either type of asset to determine what evidence would be required.	
	Applications will be determined also in accordance with Policy HE3 on designated heritage assets. Additionally, proposals should take a positive approach to archaeology, by avoiding locating development on sensitive areas and designing development that responds positively to the significance of archaeological features, including their settings.	Further changes from Historic England in their hearing statement
MM43	Policy HE7	Comments from
(Policy HE7)	Non-designated Archaeological Assets	Historic England
	Amend policy as follows:	
	In addition to the policies that apply to all heritage assets and non-designated heritage assets, the following also applies.	
	Development proposals should be supported by proportionate evidence describing the significance of any archaeological assets affected, including any contribution made by their settings. Where a development site includes or has the potential to include archaeological assets, early discussions will need to take place with the Council/archaeological advisor. A desk-based assessment and, where necessary the results of a field evaluation (conducted by a suitably qualified archaeological organisation), must be submitted to the local planning authority.	

Proposed Modification Reference	Proposed Modification	Reason
	Where development affecting archaeological assets is permitted, developers will be required to record and advance understanding of any assets to be lost (wholly or in part) in accordance with a written programme of archaeological investigation, including excavation, recording and analysis, to be undertaken by an appropriately qualified archaeological organisation. The results and analysis of investigations should be published and provided to the local authority for inclusion in the Winchester Historic Environment Record. Where development affecting archaeological assets is permitted, developers will be required to record and advance understanding of any assets to be lost (wholly or in part) in accordance with a written programme of archaeological investigation, including excavation, recording and analysis, to be undertaken by an appropriately qualified archaeological organisation. The results and analysis of investigations should be published and provided to the local authority for inclusion in the Winchester Historic Environment Record	
MM44 (Policy HE9)	Policy HE9 Change of use to Listed Buildings	
	Amend policy as follows:	
	Switch criterion ii with criterion iii and replace 'and' with 'or' in the new criterion iii	Proposed modifications as a

	district requirement is met by dwellings that have either been completed or which already have planning consent. A further 12% 13% are expected from windfall development over the Plan period 2024-2040 and this is based on cautious assumptions derived from the Assessment of Windfall Trends and Potential 2021. Therefore, less than 25% 34% of provision is from Local Plan allocations (either carried forward or new), giving a high level of certainty over the delivery of this additional housing	
	Strategic Policy H1 Housing Provision	
	Amend policy as follows:	
	Housing will be permitted to provide for the scale, types and tenures of housing needed in the Local Plan area over the Plan period (2020-2040), including a contribution towards the unmet needs of adjoining areas. Provision is made for the development of about 15,115 11,000 dwellings (net) in this period (excluding the South Downs National Park area), by prioritising suitable previously developed land within defined settlement boundaries, completion of strategic allocations at Kings Barton (North Winchester), Newlands (West of Waterlooville) and North Whiteley, and delivery of sites allocated within and adjoining the most sustainable settlements, in accordance with the Local Plan's spatial strategy (set out in Policy SP2). Housing development will be distributed between the three spatial areas as follows: i. Winchester Town about 5,640 4,445 dwellings ii. South Hampshire Urban Areas about 5,650 3,880 dwellings iii. Market Towns and Rural Area about 3,825 2,675 dwellings.	
MM50 (Policy H2)	Supporting text: Revise wording in paragraph 9.22	Policy H2 would not accord with national policy to significantly boost the supply of housing.

Proposed Modification Reference	Proposed Modification	Reason
T.G.G.F.G.F.G.F.G.F.G.F.G.F.G.F.G.F.G.F.	9.22 Policy SP2 sets out the development strategy for the Local Plan area and Policy H1 sets out how this will be achieved in terms of housing provision. The total provision of about 15,115 11,310 dwellings relates to the Local Plan area and it is estimated that a further includes about 310 dwellings that will be provided within the National Park part of the district, which will come forward through the existing South Downs Local Plan (which covers the period to 2033) or a subsequent review. Amend wording of paragraph 9.23	To reflect changes in policy H2 under MM49 Revised trajectory chart
	9.23 A large part of the housing supply benefits from planning consent or has already been completed. Allowance is also made for windfall development, which the evidence expects to be a reliable source of housing supply. A detailed housing trajectory table is set out in Appendix v to the Plan. There is no scope to phase these elements of the housing supply, so it is expected that most housing from these sources will be developed in the first half of the Local Plan period (2020-2030). The strategic allocations, along with new allocated sites and some windfall provision, will continue to be built out into the second half of the Plan period, but it is necessary to phase the greenfield allocations towards the latter parts of the Plan period so as to maintain a reasonable level of provision in these phases and prevent all housing provision from being built out in the early years of the Local Plan. Delete Paragraph 9.24	and table incorporated in this MM to comply with the requirement in the NPPF that strategic policies should include a trajectory illustrating the expected rate of housing delivery over the period 2024-2040. The trajectory is set out in Appendix 5 to this document.
	Revise paragraph 9.25 as follows –	
	9.25 The NPPF expects that at least 10% of the housing requirement (about 1,511 1,130 dwellings) should be provided on sites no larger than 1 hectare. In Winchester about 4540% of the Local Plan housing requirement will be provided on three strategic scale sites ever the Plan period2024-2040. Nevertheless, it is expected that the Government's aspiration can be exceeded when account is taken of existing completions and commitments on smaller sites, windfall sites and Local Plan allocations, which total ever 2,400 nearly 1,900 dwellings or nearly 1617% of the Local Plan housing requirement.	To align the Plan's housing requirement with the latest calculation of Local Housing Need (2024)and updated figures for completions

Reference MM62 (Policy E5)	Supporting text: Amend paragraph 10.93 as follows — 10.93 Employment uses are defined as office, industrial and some sui-generis other uses that are employment and business-led, as set out in Policy E5 below. It is recognised that there are also a large number of other activities that generate employment that do not fall within this definition. These activities also make a large contribution to the economy of the district and they will be considered in relation the principles set out within Strategic Policy E1. Amend paragraph 10.96 as follows - 10.96 Sui generis uses are uses that do not fall within any specified use class. Whether a particular proposal that is sui generis not within use classes Eg and B2-B8 will fall within the terms of this policy will therefore need to be considered on a case-by-case basis. Some activities that are specifically referred to in the legislation as being sui generis, that would fall within the terms of this policy however, are - scrap yards and car breakers yards, fuel stations, car sales sites, retail warehouse clubs and mineral storage and distribution sites. Policy E5 Enhancing Employment Opportunities Amend second paragraph of Policy E5 as follows — For the purposes of this policy, Eemployment uses are considered to be the following: Amend criterion iii of Policy E5 as follows — iii. Some Sui Generis Other activities where they are employment and business-led, to be determined on an individual basis	To recognise that it may be appropriate for this policy to apply to some other uses that are not sui generis.

Proposed Modification Reference	Proposed Modification	Reason
MM63 (Policy E6)	Policy E6 Retaining Employment Opportunities Delete criterion vi of policy E6 and consequential amendments as follows — iv. The impact of continued employment use on the local environment and amenity; and v. The suitability of access arrangements for the site/ buildings, by road and public transport, and vi. The benefits of the proposed use compared to the benefits of retaining the existing use.	Criterion vi is unnecessary and potentially reduces the clarity and effectiveness of the policy.
MM64 (Policy E7)	Policy E7 Maintaining the Vitality and Viability of Town Centres Amendments to the final two paragraphs as follows - Within the Primary Shopping Areas Pproposals for a change of use or the redevelopment of premises away from retail or other Class E uses, will only be supported where it can be demonstrated that: i. The proposal will contribute to the centre's vitality and viability during daytime trading hours; and ii. Proportionate evidence has been provided to demonstrate that the premises are no longer required for retail or other Class E uses. Where supporting viability evidence is considered necessary Aas part of the assessment of such proposals, applicants will be expected to provide viability assessments of the site and evidence of the appropriate marketing for alternative town centre uses. Marketing should be undertaken for a minimum of at least 12 months. Such assessments will always be required where the proposal would result in a loss of a Class E use within the Primary Shopping Area.	For clarification purposes

	Delete the end of paragraph 12.15 which states: Therefore, a working assumption has been made that the site could accommodate about 900 dwellings. Amend paragraphs 12.18, 12.25, 12.29 as follows:	To reflect the outcome of the Local Plan examination hearing session and the Inspector Note ED38a.

Proposed Modification Reference	Proposed Modification	Reason
	12.18 The main vehicular access to the site is via a dedicated access road which is located off Andover Road North (B3420) (the main north south route in and out of Winchester). Given the secure/defence-related nature of the site, there is a gatehouse and guardroom entry point in the north-east. There is a secure gated access for military vehicles only which is located off Chestnut Avenue/Kennel Lane	
	 12.25 The buildings and structures are predominantly used for military training related use or associated recreational purposes and include the following: A central recreational facilities building, which includes a common room, dining area and a local shop; Gym and leisure facilities, including a swimming pool and a former nursery; which is used occasionally by the local community as well as military personnel; Various staff training equipment and military assault courses; Various residential buildings, including both trainees and more senior military personnel/officers that are stationed at the site; 250 space surface car park; and A chapel. 	
	12.29	
	Park & Ride facility	
	As the site is located on one of the key radial routes into the city centre (Andover Road), the City of Winchester Movement Strategy has identified that there is an eneed to reduce city centre traffic by increasing the number of Park & Ride facilities with a particular need to provide a ear park on Park & Ride to the north side of the city. In order to meet this need, there is an opportunity requirement, as part of the comprehensive redevelopment of this site, to provide approximately 850 spaces within the masterplan for a Park & Ride facility. The Park & Ride facility at the SJM Barracks site would need to demonstrate its relationship with the Kings Barton 200 space Park & Ride Light site that is located on the opposite side of Andover Road (Policy W1). This would be in addition to the Kings Barton 200 space Park & Ride Light site that is located on the opposite side of Andover Road which would need to be operationally connected to the Park & Ride facility at the Sir John	

Proposed Modification	Reason
Moore Barracks site (Policy W1) The scale and location of the Park & Ride facility should be considered as part of the master planning process with full details to be submitted as part of the planning application process and be in a location that is physically connected to sustainable modes of transport and capable of providing electrical charging points and cycle parking.	
Policy W2 Sir John Moore Barracks	
Amend policy as follows:	
Land at Sir John Moore Barracks, Winchester as defined on the Policies Map, is allocated as a mixed use site which is mainly residential led comprising of 750 to 1,000 about 900 homes, ancillary and supporting uses to make this a sustainable neighbourhood with approximately an 850 space Park & Ride facility provided that detailed proposals accord with the Development Plan and demonstrate how proposals will accord with the following:	
i. Any application for development is preceded by, and is consistent with, a comprehensive and evidence based site wide masterplan which demonstrates how high quality design, green spaces, settlement gap will be delivered for the whole site which has involved and engaged with stakeholders and interested parties before it is agreed by the local planning authority;	
ii. The proposals relate to the whole of the allocated site or, if less, do not in any way prejudice the implementation of the masterplan for the whole site;	
Add additional criterion to Policy W2 between criterion ii and iii and subsequently renumber:	
The development will need to demonstrate how it responds positively to the settlement gap between Winchester and Littleton and as part of the design process, demonstrate how the development has retained	
	Moore Barracks site (Policy W1) The scale and location of the Park & Ride facility should be considered as part of the master planning process with full details to be submitted as part of the planning application process and be in a location that is physically connected to sustainable modes of transport and capable of providing electrical charging points and cycle parking. Policy W2 Sir John Moore Barracks Amend policy as follows: Land at Sir John Moore Barracks, Winchester as defined on the Policies Map, is allocated as a mixed use site which is mainly residential led comprising of 750 to 1,000 about 900 homes, ancillary and supporting uses to make this a sustainable neighbourhood with approximately an 850 space Park & Ride facility provided that detailed proposals accord with the Development Plan and demonstrate how proposals will accord with the following: i. 	is built out any future review of the Local Plan should include a review of the settlement	
	<u>gap;</u>	
	iii. The proposals include a phasing and delivery strategy that is related to the provision of infrastructure <u>needed to make the development acceptable in planning terms together</u> <u>with</u> and the creation of neighbourhood centre(s) with ancillary and supporting uses.	
	iv. The proposals investigates the opportunity to reuse/re-purpose any of the existing buildings and gives priority to the use of the previously developed land and the intensification of the existing built up area before the use of undeveloped land;	
	v. The proposals consider and address the need for education provision (Primary and Secondary) to meet the needs of the development and if not provided on the site, provide suitable sustainable links that can be used all year round;	
	vi. The proposals include a high standard of architectural design and use quality materials and detailing, through the creation of a design response that will deliver innovative, sustainable new buildings, creating and providing high quality public spaces and improvements to the public realm;	
	vii. Access should be off Andover Road North (B3420) ;	
	viii. Include direct, safe and lit, active travel links as part of a strategy that minimises car journeys from the development. High quality facilities for walking, cycling and wheeling and public transport that is connected to the surrounding area/ PROW/cycle network in accordance with the Hampshire Movement and Place Framework and Healthy Streets approach;	
	ix. The proposals ensure that the existing access to the site via Chestnut Avenue (which is a private road)/Kennel Lane is retained and is only used for pedestrian, cyclists and potential emergency access purposes;	

Proposed Modification Reference	Proposed Modification	Reason
	x. The proposals consider the importance, retention and management of the Flowerdown Site of Importance for Nature Conservation (SINC) in perpetuity by including a management plan for the maintenance and monitoring of these habitats;	
	xi. A site specific Flood Risk Assessment will need to be prepared and agreed that demonstrates how the development will be safe for its lifetime taking climate change and the vulnerability of the developments users into account, and ensure that flood risk is not increased elsewhere as a result of the development;	
	xii. As part of the design process, further investigation (through topographic surveys and flood modelling) determines the exact route of the winterbourne which crosses the site which should be managed and protected as it carries floodwater away from Littleton when groundwater levels are high;	
	xiii. The proposals are accompanied by a green/blue infrastructure/ SuDS hierarchy strategy to both enhance the development and mitigate potential impacts on the surface water from flooding and ground water from Littleton in a way that increases the biodiversity on the site. This should include the provision of multi-functional green/blue links throughout the site and ensure that any additional surface water resulting from the development does not have a detrimental impact on the SINC or other protected sites;	
	xiv. The proposals record features of heritage significance and incorporates them where feasible into any re-development of the site as part of a wider heritage trail that celebrates the site's military history and helps the general public to understand and appreciate how the site has evolved. The proposals will also need to minimise harm to the setting of the adjacent Scheduled Round Barrows;	
	xv. The proposals incorporate and include public realm to enhance the intrinsic quality of the site and creates a 'sense of place' putting people and places at the forefront of the development;	
	xvi. The proposals retain the existing Chapel and opens this up to the community as part of	

Proposed Modification Reference	Proposed Modification	Reason
	any new development, as this will reinforce links to Peninsula Barracks and historical military associations with Winchester;	
	xvii. The proposals include an assessment of the condition, age and the need to technical feasibility/viability to demonstrate the ability to retain/refurbish/redevelop, viably operate / incorporate the existing gym, leisure facilities and the swimming pool as part of the wider residential led scheme. Depending on the outcome of this assessment if they are viable, they should be opened up for use by the local community and management plan should accompany any planning application for this part of the site;	
	xviii. The proposals consider the potential impacts of wastewater (nutrients) produced by the development upon the Solent SAC and River Itchen SAC and identify mitigation so as to avoid any adverse impact on these nationally protected sites either by incorporating measures within the site as part of the development or secured by alternative means if this is not feasible (Policy NE6);	
	xix. The proposals include a Park & Ride facility of approximately 850 spaces and demonstrates the relationship with that would be in addition to and would need to be connected operationally to the 200 space Kings Barton Park & Ride light. The scale and location of the Park & Ride facility should include the provision of charging points and cycle parking that should be determined through the master planning process and full details should be submitted as part of the planning application process transport assessment include the provision of electrical charging points and cycle parking facilities; and	
	xx. Occupation of development will be phased to align with the delivery of sewerage infrastructure, in consultation with the service provider.	
MM69 (Policy W3)	Supporting text: Amend paragraph 12.37 as follows:	Comments from Historic England and the Environment Agency
	12.37 Any proposals will need to be designed in a sensitive manner as the southern part of the	

Proposed Modification Reference	Proposed Modification	Reason
	site is located within Winchester Conservation Area. Relevant references include (but are not limited to) the Conservation Area Appraisal and Winchester Townscape Assessment.	To assist with clarification.
	Policy W3 St Peter's Car Park	
	Delete criterion iv in Policy W3 and re-number the criterion accordingly.	
	iv. The proposals takes advantage of the site's close proximity to the Winchester Town Centre;	
	Amendments to criterion iii and criterion x as follows –	
	iii. As part of the design process, proposals should assess the overall height of the proposed development and the impact on the character of the Conservation Area and the setting of Listed Buildings;	
	x. A site specific Flood Risk Assessment will need to be prepared and agreed that demonstrates how the development will be safe for its lifetime taking climate change and the vulnerability of the developments users into account, and ensure that flood risk is not increased elsewhere as a result of the development. Only development that is water compatible or essential infrastructure shall take place within Flood Zone 3b (functional floodplain);	
MM70 (Policy W4)	Supporting text:	Comments from HIWWT, HCC, ICB and Natural
	Amend paragraph 12.41 as follows:	England.
	12.41 To the north is an important tree belt for bats and beyond this the Barton Meadows Nature Reserve which was provided in conjunction with development at Barton Farm. The Barton Meadows Nature Reserve is an important corridor for wildlife and creates a wider landscape in which wildlife can travel, contributing to the Nature Recovery Network. Due to the proximity of this site to the Barton Meadows Nature Reserve, the development should scope	Recommendations in the HRA on the draft Proposed Modifications.

to enhance the integrity of the Reserve and manage access so as to achieve this and to divert pressure from Barton Meadows Nature Reserve. to it should be investigated. The site is within the currently defined Winchester to Kings Worthy / Headbourne Worthy settlement	To reflect the deletion of phasing policy (Policy
gap. However, it is well-contained and suited to development and development would not extend the built-up area beyond its current northern boundary, helping to retain the openness of the settlement gap.	H4).
Delete supporting paragraph 12.44 In accordance with Policy H2, the development of this greenfield site will be phased to take place in the second half of the Local Plan period (2030 onwards). This is particularly relevant given the importance of prioritising brownfield sites, including Sir John Moore Barracks, and the fact that much of the Barton Farm development remains to be built.	
Policy W4 Land West of Courtenay Road	
Delete criterion i and renumber criterion accordingly:	
Nature & Phasing of Development	
The development is phased for the latter part of the Local Plan period and permission for housing development will not be granted before 2030;	
Amendments to criterion iii and criterion vi as follows –	
iii Contribute to any other off-site junction-transport improvements necessary;	
vi Provide <u>physical and social</u> infrastructure needed to make the development acceptable in planning terms, including addressing any need for education provision (Primary and Secondary) to meet the needs of the development.

	and the development of an older persons' housing scheme (already permitted within the local centre as part of the outline consent for Newlands, (approximately 45 dwelling equivalents). These are expected to give an additional capacity of about 300350 dwellings.	session and the Inspector Note ED38a.
	Policy SH1 Newlands (West of Waterlooville)	
	Amend policy as follows:	
	Land at Newlands, to the West of Waterlooville, <u>as shown on the Policies Map</u> , (as shown on the map of Newlands (West of Waterlooville) Master Plan Area) remains allocated to complete the development of a new community of 3,000 dwellings (about 600 in Havant Borough), of which 40% are expected to be affordable, and associated employment provision, support facilities and services, together with supporting uses. An additional approximately 300 350 dwellings will be achieved through intensification or rearrangement of uses within the Winchester district part of the development. This should continue to deliver the agreed vision for West of Waterlooville, which aims to create a sustainable urban extension to Waterlooville, integrated with the town centre and forming the fourth quadrant of the town.	
	Development should accord with Policy SP2 and the following site-specific requirements:	
	i. Be integrated with Waterlooville town centre including measures to enable good pedestrian and cycle access across Maurepas Way; ii. Retail provision within the development should be within a modest local centre which is	
	subservient to Waterlooville town centre; iii. Provide about 23 hectares of employment land, including uses which will help link the development to the town centre, create a vibrant commercial area and include some mixed housing/ commercial areas;	
	iv. Provide a new access road through the development between the A3/ Ladybridge Road roundabout and the A3/Maurepas Way roundabout with public transport provision and other measures to reduce traffic generation. The development should fund any off-site transport improvements necessary to achieve this and to accommodate traffic likely to be generated by	

Proposed Modification Reference	Proposed Modification	Reason
	the development; v. Provide primary school places and contributions to off-site improvements to secondary education to accommodate the development, along with other physical and social infrastructure to make the development acceptable in planning terms; vi. A site specific Flood Risk Assessment will need to be prepared and agreed that demonstrates how the development will be safe over its lifetime, taking climate change and the vulnerability of the developments users into account, and ensure that flood risk is not increased elsewhere as a result of the development; vii. Ensure that the groundwater Source Protection Zone is protected and that development will be safe over its lifetime by undertaking a site-specific flood risk assessment and implementing any necessary measures; and viii. Occupation of development will be phased to align with the delivery of sewerage infrastructure, in consultation with the service provider ix. Implement a Green Infrastructure Strategy for the additional approximately 350 dwellings to avoid harmful impacts and mitigate the local and wider impacts of the development, including their phasing and long-term management and any off-site measures required to mitigate harmful impacts on European sites. New green infrastructure must seek to provide facilities for dog walking and local walks, to reduce trips to the SPA/Ramsar sites, and design of the greenspace must be agreed with Natural England, as part of a project-level HRA	
MM80 (Policy SH2)	Supporting text: Change Indicative number of homes at the top of page 373 Indicative number of homes: Approx. 2,500 of original allocation remaining (April 2023),	Update in response to the HRA Addendum and Comments from Natural England.
	approx. 200 180 additional proposed. Amend paragraph 13.20 as follows:	To reflect the outcome of the Local Plan examination hearing
	13.20 The original site area was approximately 202 hectares, of which around half is either	

Proposed Modification Reference	Proposed Modification	Reason
constrained or required to mitigate potential environmental impacts. This significe the developable area, but the site was allocated for about 3,500 new dwellings. The development area has been reviewed and this indicates that additional capa achieved through small extensions to the proposed development area (totalling a hectares), without breaching important boundaries of the development area, at la Bluebell Way (approximately 110 90 dwellings) and land off Ridge Farm Lane (a 50 dwellings). In addition, the development of an extra care scheme (already per adjacent to the northern local centre as part of the outline consent for Northwell contribute a further approximately 40 dwelling equivalents. These are expect additional capacity of about 200 180 dwellings.		session and the Inspector Note ED38a.
	Policy SH2 North Whiteley	
	Additional consequential change are then needed to preamble to Policy SH2:	
	Land to the North of Whiteley <u>as shown on the Policies Map, is</u> (as shown on the map above) remains allocated to complete the development of about 3,500 dwellings together with supporting uses. An additional approximately 200-180 dwellings, of which 40% are expected to be affordable, will be achieved through the allocation of approximately 6 hectares of land as small extensions to the original allocation and development of an extra care scheme. The development as a whole should reflect Whiteley's predominantly wooded character and setting by maximising the opportunities presented by the substantial areas of green space within and adjoining the allocated area, which are either unsuitable for built development or needed to mitigate potential impacts on protected sites. Development proposals should be consistent with the masterplan, indicative layout and phasing plan approved for the original allocation.	
	Amendments to criteria ix and x as follows –	
	ix. Assess the impact of development both on site and in combination with other nearby sites on habitats and biodiversity through a project level HRA (especially those of national and international importance such as the River Hamble and the Solent); and	

Proposed Modification Reference	Proposed Modification	Reason
	x. Implement a Green Infrastructure Strategy to avoid harmful impacts and mitigate the local and wider impacts of the development, including their phasing and long-term management and any off- site measures required to mitigate harmful impacts on European sites. New green infrastructure must seek to provide facilities for dog walking and local walks, to reduce trips to the SPA/Ramsar sites, and design of the greenspace must be agreed with Natural England, as part of a project-level HRA.

	Amendments to the policy and criteria i, ii, and vii as follows:	considered appropriate to recognise this in the
	Sites at Winchester Road and Mill Lane, as shown on the Policies Map, are allocated in the adopted Local Plan for the phased development of about 125 dwellings and public sports provision open space. Planning permission will be granted provided that detailed proposals accord with the Development Plan and meet the following specific development requirements:	Plan and introduce some flexibility in the policy.
	Nature & Phasing of Development i. Two adjoining sites at Winchester Road are proposed for residential development in conjunction with 3.5 hectares of land at Mill Lane being laid out and made available for the provision of sports pitches, pavilion and parkingopen space. A masterplan establishing principles for the disposition of housing, open space, access points and linkages for the whole allocated area should be submitted with each application for development. Any subsequent applications for all or part of the site should also demonstrate how the proposal will accord with these principles and achieve the form of development intended by this allocation as a whole;	
	ii. A phasing plan establishing the order and location of development and infrastructure provision for all the allocated areas should be produced and agreed in advance of permission being granted for any of the sites allocated. This should indicate how and when the sports open space provision will be made and how the housing (including affordable housing) will be programmed to achieve a suitable rate of development over time.	
	vii. Provide and lay out 3.5 hectares of land at Mill Lane for <u>either</u> public sports <u>facilities</u> <u>pitches,and</u> suitable changing facilities <u>or other suitable open space</u> and associated access, parking, drainage and landscaping <u>to protect the setting of the SDNP</u> ,	
MM105	Amendment to map on page 459 to amend boundary.	Amendment of

Proposed Modification Reference	Proposed Modification	Reason
Reference (Policy WK3)	Consequential change to SD05 (policies map) and overview map (page 454) to reflect this change. Supporting text: Revise text on page 459 of the Plan as follows — Location: Located between to the south of Knowle and Wickham to the north of the FBC Boundary Size: 240 61 hectares Revise paras. 14.115 and 14.116 as follows - 14.115 Although none of the built element of the SDA will be within Winchester district, the SDA is a strategic issue which the Winchester District Local Plan needs to address. Green buffers are provided to ensure that Welborne does not coalesce with Wickham or Knowle. Some of the land involved will be within Fareham Borough, and the ective ecouncil would encourage its location adjoining areas of new green infrastructure, so as to reinforce the buffer between Welborne and Knowle and Wickham. It is also necessary for this Plan to define the general extent of open land within Winchester district which should be retained as a gap between Welborne and these settlements. It may be possible to accommodate some natural green infrastructure on land within Winchester district, provided it does not include buildings and maintains the open and rural character of the land and enables its long-term management to be secured. The Welborne Plan identifies two areas of land within Winchester District (Dashwood and the Knowle triangle) as having a potential role as green infrastructure. The overriding requirement is to retain the open rural nature of this land and to prevent changes which would urbanise its undeveloped character. The uses and management of the area must help to secure an effective, viable and long-term gap between Welborne and the separate settlements of Knowle and Wickham.	boundary. To reflect the outcome of the Local Plan examination hearing session and the Inspector Note ED38a.

Proposed Modification Reference	Proposed Modification	Reason
	14.116 Policy WK3 below sets out the planning framework for the areas within Winchester district identified as having potential to deliver green infrastructure as part of the Welborne development.	
	Policy WK3 Welborne Open Space	
	Amend policy as follows:	
	The city council will cooperate with Fareham Borough Council to help develop a Strategic Development Area of about 6,000 dwellings together with supporting uses, centred immediately to the north of Fareham. Land within Winchester district (as shown on the plan below), as shown on the Policies Map, is allocated to will form part of the open areas, to ensure the delivery of Welborne in a coordinated and comprehensive manner. separation between the SDA and the existing settlements of Knowle and Wickham. The open and undeveloped rural character of this land will be retained through the application of Policy NE7 – Settlement Gaps.	
MM106 (Policy WK5)	Supporting text: Update maps to include the boundary of the South Downs National Park (p.461).	To retain flexibility in how suitable pedestrian links may be delivered.
	Amend paragraph 14.119 as follows:	Comments from South
	14.119 Mill Lane is currently a narrow rural road with relatively low traffic volume. Pedestrian and cycle access should be established at the southern end of the site through to Houghton Way, to link into existing pedestrian facilities network, either through Houghton Way or another suitable route. Policy WK5 Mill Lane	Downs National Park Authority. To reflect the deletion of the phasing policy (Policy H2).

	remains will be encountered. Records show that a Roman building of some status was reported	
	at or near this location. It is possible that an archaeological issue will emerge and remains	
	which could potentially be categorised as nationally important may be found.	
	Development proposals should be sensitive to such remains in line with Policy HE6.	
	14.184	
	The village of Sutton Scotney has experienced high levels of groundwater flooding and	
	infiltration drainage issues. Due to historic flooding events, it is advised to engage early with	
	the Lead Flood Authority. Additionally, engagement with the Environment Agency is encouraged because of the site's proximity to flood zones 2 and 3. Given the historical	
	presence of silt in the area, as part of the design process, it will need to be demonstrated how	
	this issue is dealt with during construction and post occupation. As there can be high levels of	
	groundwater which have the potential to restrict drainage outfalls for a considerable period,	
	surcharging will need to be considered with appropriate SuDS / land uses considered to	
	manage flood risk in a groundwater flood event scenario. In order to be able to manage	
	groundwater flood risk, the use of open space and SUDS should be considered to create a	
	buffer between the site and the main road to the south. A Hydrogeological Risk Assessment	
	must be provided to determine whether there is a hazard to water resources, quality or	
	abstractors. If the Hydrogeological Risk Assessment identifies unacceptable risk, the	
	developer must provide appropriate mitigation.
